

Feb INSET Thursday

Welcome! Here you will find necessary information for our activities on Thursday.

Goals:

- Introduce tools for teacher collaboration and provide opportunities for their use.
- Continue to develop teacher confidence and skills in using technology tools for project based learning.
- Do the above in an effective, fun manner.

GROUPS FOR 5 FEB		
A - BLUE Janet Aston Juan Saavedra Angela Harvey Eleven Hu Lisa Tan ROTATION = A: 1-2-3-4	A - GREEN Calvin Caine Aggie Huang Matthew Lacey Karen Zhang Vivian Tian ROTATION = A: 2-3-4-1	A - RED Steve Edkins Elizabeth Solomon Eunice Ong Sunny Wang Lauren Wang ROTATION = A: 3-4-1-2
A - YELLOW Jae Yong Hwangbo Nele Renchens Mark Ritchie Nadean Curtiss Lisa Wang ROTATION = A: 4-1-2-3	A - PURPLE Scott Platt Christine Wu Tracey Garrett Cherry Zhang Lily Cheng ROTATION = A: 1-2-3-4	A - ORANGE Phil Harrington Linda white Vicki Rogers Neil Kilah Lucia Jin ROTATION = A: 2-3-4-1
A - BROWN Isabelle Holovecz Andrei Tyoschin Ron Stiles WAB Trish McNair Sissi Wang ROTATION = A: 3-4-1-2		
B - BLUE Woo Hee Jun Stephen Toole Anna Yuen Chris Allen Linnie Zhang ROTATION = B: 1-2-3-4	B - GREEN Andrew Kay George Muschio Mandy Dorta-Wilson Young Koo Lim Jean Yang ROTATION = B: 2-3-4-1	B - RED Evy Yaguigou Arden Tyoschin Chris Klesch Cindy Van den Heuvel Honesty Chen ROTATION = B: 3-4-1-2
B - YELLOW Tony McMullen Richard Swart Livia Suri Angela Tan Jo Qiao ROTATION = B: 4-1-2-3	B - PURPLE Dave Morgan Paul Underwood Bing Ge Linden Bentley Amanda Xie ROTATION = B: 1-2-3-4	B - ORANGE Kath Adams Karen Xie Derek Pinchbeck Dorothy Wang Sophie Shen ROTATION = B: 2-3-4-1
B - BROWN Charlie McBride Helen Thompson Shelley Xue Angel Chen Pauline Pan ROTATION = B: 3-4-1-2		

HOMEWORK DUE FRIDAY:

1. Sign up for an account on the Apple Learning Interchange.
<http://edcommunity.apple.com/ali/>
2. Look at projects. If you need help, click on this link [Using the Apple Learning Interchange](#).
3. Review ONE project then add a comment at this link. [NIS ALI Project Reviews](#)

TIMETABLE FOR 5 FEB		
TIME	ACTIVITY	DESCRIPTION
8:30 - 9:05	WHOLE GROUP <u>OVERVIEW</u> & INTRO ACTIVITIES	1. Introduce Treasure Mystery 2. Set up iChat accounts 3. Set up Stickies 4. Name your agency 5. Choose experts for your agency
9:10 - 10:10	MINI SKILLS SESSIONS (FORENSIC TRAINING)	See INFORMATION BOARD or WIKI for locations
10:10 - 10:30	BREAK	
10:30 - 12:00	TREASURE MYSTERY STATIONS	1. All reconvene in MYP LGR 2. See INFORMATION BOARD or WIKI for locations and ROTATION ORDER 3. Agencies rotate through all 4 stations
12:00 - 13:00	LUNCH	
13:00 - 14:40	PROJECT 1 CREATION OF PRESENTATIONS	A groups: MYP LGR B groups: PYP LGR
14:40 - 15:00	BREAK	
15:00 - 16:00	SHARE PRESENTATIONS	A groups: MYP LGR B groups: PYP LGR

PROJECT ONE: The Great NIS Treasure Hunt

STORYLINE

Our director receives a phone call from an anonymous person. The female voice speaks English with a strange accent and informs him that there is ancient, great treasure hidden somewhere in NIS. Our director repeatedly asks the identity of the caller and for details about the treasure, but there is no response other than the caller softly saying: “The clues are there, your wise ones will be able to find the solution.”

Our director immediately knows that the “wise ones” the caller refers to must be the NIS staff. So he has called the staff together to assist in finding out what the treasure is and where it is hidden. He has even offered a reward for finding the answers. Hmmm... I wonder what that reward will be?

Each group will be given a set of instructions and it is your group’s task to use your technology skills, collect the clues and put together a presentation telling what you think the treasure is and where it is hidden. ***There are no right or wrong answers in this mystery, only creativity and team work count!***

GROUP INSTRUCTIONS

- Each group has 4-5 participants. The first task is to name your detective agency.
- In your agency, choose who will be the forensic expert for each category: iChat/PhotoBooth, Digital Pics/iPhoto, Video/iMovie and Audio/GarageBand and attend the skill session for that category. Make sure your group has experts in all categories.
- Check the INFORMATION BOARD or WIKI to see where skill sessions are located.
- 9:10 - 10:10 Attend skill session to become the expert in your topic for your group
- Come back together as a group. You have from 10:30 to 12:00 to collect all the resources and clues from the 4 stations.

- There are 4 stations. Check the **INFORMATION BOARD** or **WIKI** to see the rotation schedule. Your agency must attend all 4 stations.
- There is a **Station Master** at each station. When you get to your station, the **Station Master** will give you instructions. You must complete the activity and when it is finished the **Station Master** will give you your clues for that station and permission to go on to the next station.
- From 13:00 - 14:40 you will have time to put together a presentation that uses some of the resources collected, keeping in mind the clues gathered and gives your group's solution to this mystery - **WHAT** is the **NIS** treasure and **WHERE** is it located? Your presentation may take any digital form - podcast, movie, slideshow, book, keynote, pages, wiki, iWeb, ComicLife, etc. and of course can combine elements of any of these.
- From 15:00 - 16:00 all groups will share their products and solutions to this mystery.

Station 1 Instructions

Welcome to Station 1. You see an assortment of strange items. It seems that the mysterious caller did call back to let us know that these items may have something to do with the mystery. Using a laptop take a picture of these artifacts. Using iChat contact Russel who is waiting at headquarters for your message and send the picture to him. When he receives your picture you will receive an iChat message back that contains the first clues. Put these clues onto your laptop in a Sticky Note. When you have completed this station, the **Station Master** will give you permission to go on to the next station.

Station 2 Instructions

Welcome to Station 2. Here is where you will be collecting **Visual Evidence**. You have 10 minutes to scour the halls of **NIS** and using a digital camera take pictures of any suspicious people, places or items that you see. Remember **ANYTHING** could be suspicious - people who might know something about the treasure, places where you think the treasure might be located, items that

might point the way to the treasure... Use your imagination. Make sure you take at least 8 pictures. Upload these pictures into iPhoto and put them into a new album titled "NIS Mystery". When you have completed this task, the Station Master will give you your next clues along with permission to go on to the next station. Make sure to add the clues to your Stickies.

Station 3 Instructions

Welcome to Station 3. Here is where you will be collecting Video Evidence. You will check out a camera from the Station Master. You have 10 minutes to roam the halls of NIS and using your video camera take some video of possible places where you think the treasure might be located. Take no more than 2-3 minutes of video. Download the video into iMovie. Share the movie into a Quicktime movie. Return the camera to the Station Master and when you have completed this task the Station Master will give you your next clues along with permission to go on to the next station. Make sure to add the clues to your Stickies.

Station 4 Instructions

Welcome to Station 4. Here is where you will be collecting Audio Evidence. The Station Master has some information about the mystery so you will interview him/her. Use GarageBand to record your interview. Save the interview as an mp3 file. When you have completed this task, the Station Master will give you your next clues along with permission to go on to the next station. Make sure to add the clues to your Stickies.

Headquarters Instructions

OK, you now have all your resources and all the word clues. Use your creativity to come up with your agency's solution to the mystery - WHAT is the NIS treasure and WHERE is it located? Work together to put together a digital presentation to show your solution. Your presentation should contain

some of the resources (images, video, audio) that you collected at the stations, as well as make reference to some of the word clues. Your presentation may take any digital form - podcast, movie, slideshow, keynote, pages, wiki, iWeb, ComicLife, etc. and of course can combine elements of any of these.

Have fun, be creative and use your tech skills! There are support people around to help if you run into some tech questions.

CHAT/PHOTOBOOTH

iCHAT

- Put picture photo in account
- Add common buddies
- Test setup - Instant Message to someone in this session (not disturbing other sessions)
- Open iChat Instant Message and transfer a file to someone in this session - can only send file to ONE person chat not multiple person chat
- Open at Login
- Set up a multiple instant message with people in this session
- Set up audio chat with someone in session
- One person sets up a room and others join room
- Look at emote icons
- Look at saving chat log

PHOTOBOOTH

- Open PhotoBooth
- Look at Effects
- Take picture
- Flip picture
- Drag and drop to transfer file (desktop, iPhoto, etc.)

iPHOTO

- Show uploading pictures from camera or chip
- Discuss Events vs Albums - Events tied to date in camera (make sure camera date is accurate!)
- Title and splitting Events
- Skimming Events
- Make and title a new album and put pictures into album (If participant has no pictures, drag some from PhotoBooth or use Command-Shift-4 and make a screen picture or use Photos for INSET in Public - ICTResource - INSET Tech Feb - Photos
- Deleting pictures - delete from album does not delete from Library, delete from Library puts into iPhoto Trash can and needs to be emptied
- Slideshow - Export
- Email
- Rotate picture
- Edit picture - Crop, Straighten, Enhance, Red Eye, Retouch, Effects, Adjust - NOTE: if press DONE it will save your work automatically with no warning - if ESCAPE it go back to original photo
- Book, Calendar, Card

iMOVIE

- Show how to import video from camera
- Use video on computer or import from Public - ICTResource - INSET Tech Feb - Movie - CNY Movie
- Event Library vs Project Library
- Skimming the event
- Dragging sections of event into Project
- Name Project
- Put title on project - change duration of title and reposition
- Split clip
- Add transition - change duration of transition
- Add photo
- Export Using QuickTime
- Add music - use iLife sound effects Jingles if people don't have music in iTunes

- **Adjust length of music**
- **Audio Adjustments**
- **Voice-overs**

GARAGEBAND

- **Create New Music Project**
- **Discuss tracks**
- **Preferences and set Input and Output sources**
- **Record voice (show Mute and Track Volume)**
- **Save and Export - Song to Disk**
- **Create a New Podcast episode**
- **Add photos**
- **Add jingle**
- **Podcast Preview**
- **Magic GarageBand**
